# TOP SHAPE

A work surface solution  
that changes the face  
of kitchen design

## The ultimate square edged worktop

TopShape is the ultimate square edged kitchen worktop. Our very best laminate product is represented here in our TopShape range with many new innovative textures and new designs. We have carefully selected matching edging for TopShape where even the textured work surfaces have a matching textured edging.

### What makes TopShape so special?

- ✓ Laminated on both sides with heat, water and scuff resistant laminate.
- ✓ Square Edge profile. Edged on all four sides to match surface colour and texture.
- ✓ Furniture grade chipboard core.
- ✓ No exposed surface areas.
- ✓ Available in both 25mm and 40mm nominal thickness.
- ✓ Customised individual pieces available.

As TopShape comes pre-edged, installation is quick and easy and does not require any on site finishing. TopShape can and will revolutionize your kitchen designs.

Featuring a contemporary square edge profile, TopShape kitchen worktops are edged on all four sides and laminated both top and bottom with the same high quality laminate.

TopShape is an off-the-shelf solution that is ready to go. Installation is quick and easy and does not require any on-site finishing. TopShape will revolutionize your kitchen designs.

# Caring for your Worktop

## Laminated work surfaces

The following is a Care & Maintenance Guide only. The information presents the most effective ways of caring for your worktop. The warranty is only valid if guidelines as described are followed.

## Cleaning

General cleaning of the surface requires only a damp cloth & a mild detergent or non abrasive cleaner diluted in warm water. Some strong chemicals, dyes and fruit juices may harm your TopShape work surface.

In the event of spillage always wipe up, rinse & dry the area thoroughly. Do not leave liquids lying on the surface. They may seep through a joint and affect the core board.

Note: Prolonged contact with some PVC aprons may promote premature wear of the work surface. Abrasive scouring powders, creams and even polishes should all be avoided.

	Things To Do	Things To Avoid
<b>HEAT</b> 	To prevent damage from hot objects, use heat resistant mats on the surface of the worktop. Always use ashtrays for cigarettes.	Never place objects from the oven or hob directly onto the laminate surface since this may lead to blistering. Care should also be taken with hot irons and cigarettes.
<b>SCRATCHING</b> 	Always use a chopping board for preparing food.	Some crockery items, kitchen utensils and other objects sliding across your worktops will produce fine scratches in the laminate.  Try to avoid sliding rough based objects across the surface.  Never cut foodstuffs directly on the laminate surface.
<b>MOISTURE</b> 	Wipe spilt liquids away from joints and cut-outs immediately. Ensure that all inset appliances are properly sealed with a suitable waterproof silicone sealant.	Moisture will not harm the laminate surface itself but it is advisable to wipe away any spillages as soon as possible. The critical areas are around joints and cut-outs.

## Wear resistance

TopShape worktops provide a hard wearing surface. However, the surface will be damaged by scratching of sharp knives or other sharp utensils. It is recommended that a cutting board or protective mat be used when using such implements.

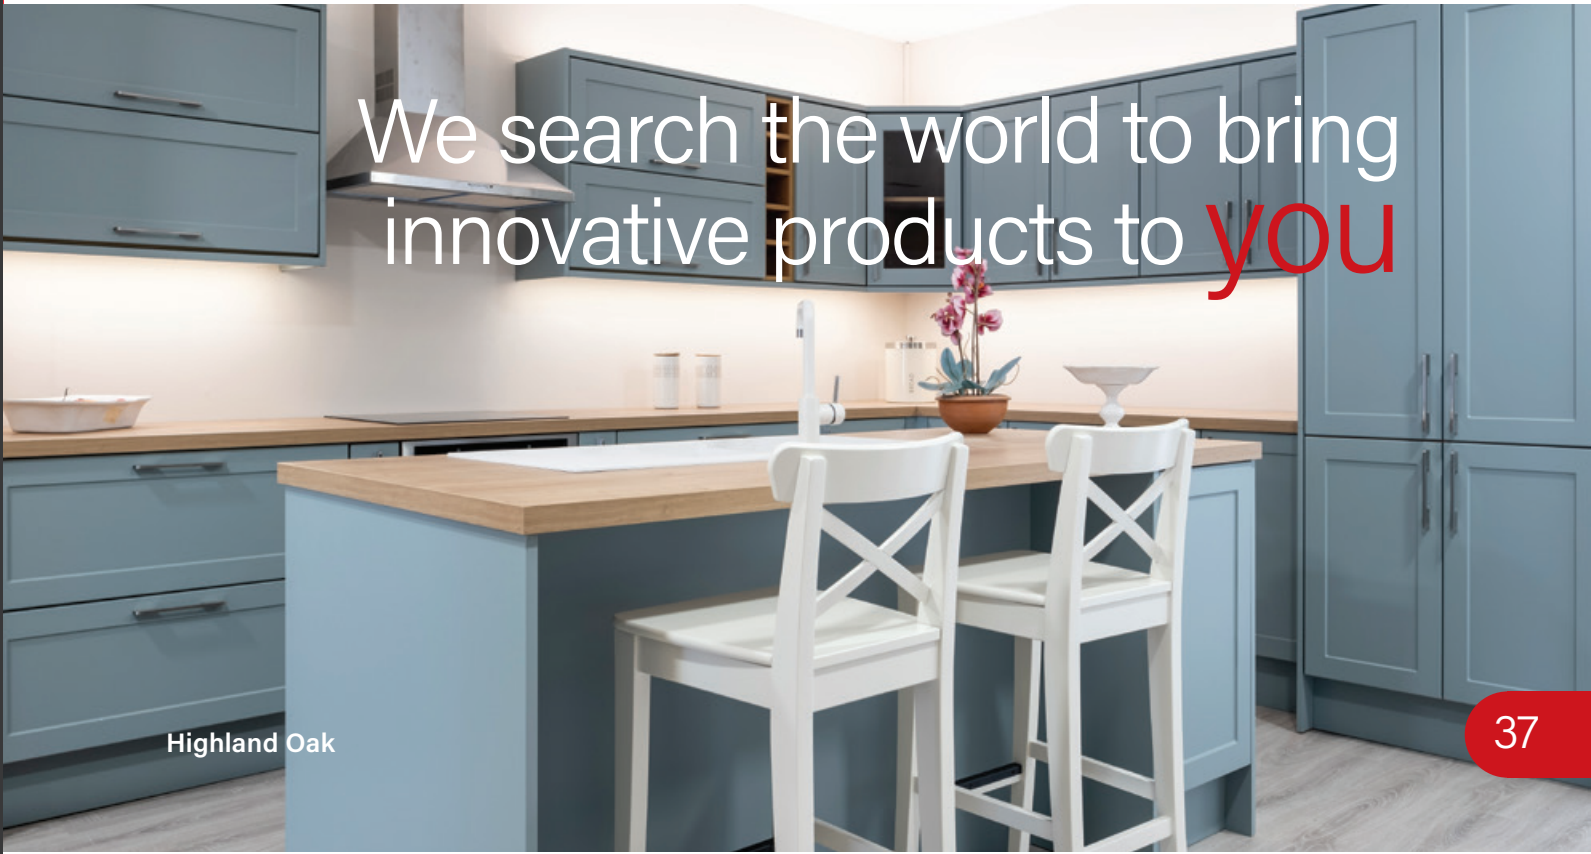

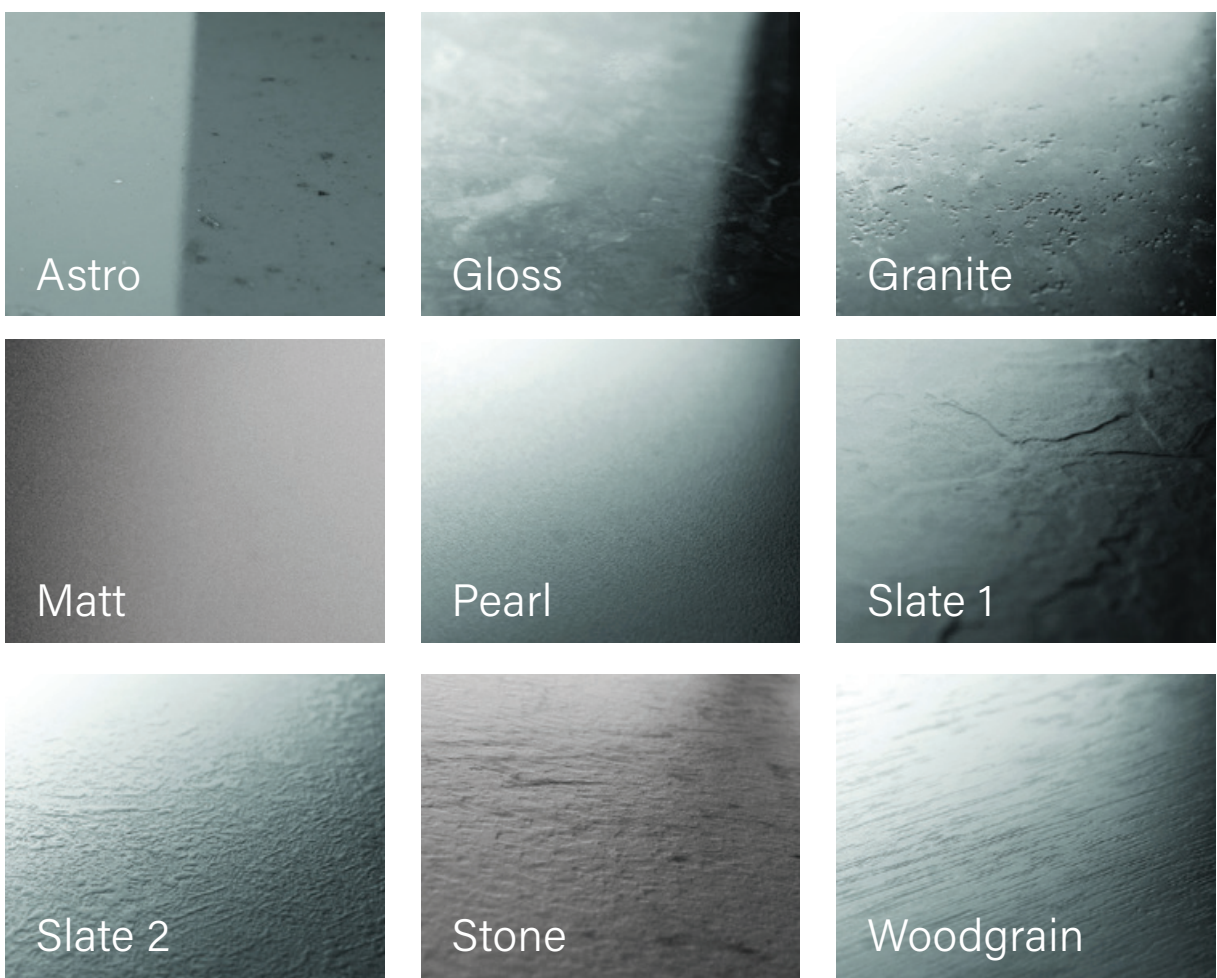

## Lifetime Warranty:

TopShape worktops have a lifetime warranty against manufacturing defects. The manufacturer undertakes to make good by repair and/or replacement (at its own discretion) any worktop shown to have failed by any reason of defects in design, materials or workmanship. This warranty is subject to fair wear and tear and providing that the installation, care and maintenance instructions have been followed and that the product has been properly used for its intended purpose. The worktop warranty becomes void once the post form edge is cut off. This undertaking is in addition to the consumers' statutory rights and does not affect those rights in any way. This warranty covers domestic installations only. No claims for replacement costs will be entertained if the worktop is not fully inspected before fitting.
